“When COVID-19 shut down our school district on March 16, my first concern was our bids that were currently on the street and a few I knew would need to be issued in the near future.

As I look at this timeline I am amazed at what ProcureNow has done for us. I have never had an implementation go as well as this has in such a short time. I had staff who weren’t thrilled with the idea when I told them what we were doing but now that we are in it they love it. It’s meeting our needs as we are able to customize certain aspects for each bid/proposal we issue.

For example, my construction buyer has specific questions she asks versus questions the other buyers ask and that’s completely customizable.

I’ve done this for years and I have to tell you that it’s hard to impress me with customer service. ProcureNow is the epitome of customer service.”
