

Because every minute matters when you're a professional.

Time is your team's most valuable resource—and often your biggest challenge. Built around the needs of professionals, Workstorm is an enterprise-grade collaboration platform that helps your team align faster, work securely and stay one step ahead of the competition.

WHY COLLABORATION TECHNOLOGY?

Is your team drowning in tools, emails and requests? It's time for a better solution.

Workers spend more than

30%

of their day on email

The average knowledge worker uses more than

10 tools

45%

of executives report their employees use

social technologies

in day-to-day work.

Innovative business collaboration techniques can

improve productivity by

30%

WHY WORKSTORM?

Built to empower and connect professional teams seamlessly, Workstorm gives you the freedom to think big and do the work you were meant to do.

Maximize every minute. Reduce hours spent searching for items and keep teams on task with messaging, video conferencing, document management and other critical capabilities in one centralized workspace.

Be a tech leader. Workstorm's powerful features bring your business into the modern age, while the intuitive interface makes change management simpler for your team.

Solve the privacy puzzle. Built with security and privacy needs of professionals in mind, we keep every byte of data secure and offer customization to meet your business' information security policies.

Attract rising stars. Show a new generation of professionals that you're on the leading edge with tools that empower them to do more.

"Our client teams are aligning better and faster, avoiding all the back-and-forth and endless email chains." – Counsel
